

# 2024 PARTS CATALOG

ALDERGROVE, BC, CANADA

# SUCCESSFUL ALLIANCE

Headquartered in British Columbia, Canada, Alliance Concrete Pumps Inc. is the exclusive distributor in North America for JunJin Heavy Industry of South Korea.

LINWOOD, PA, USA

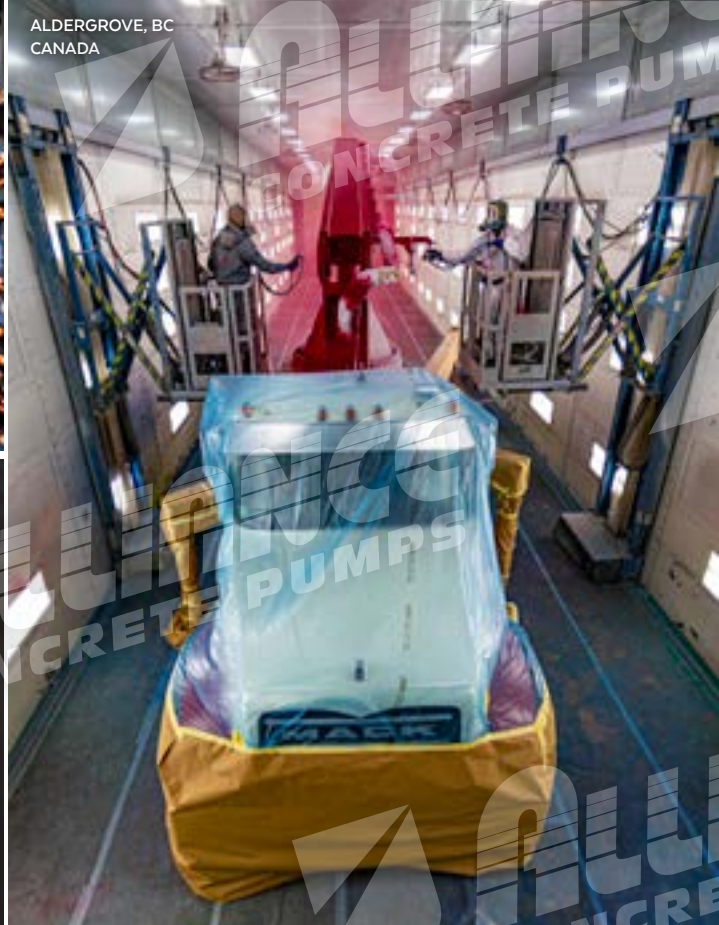

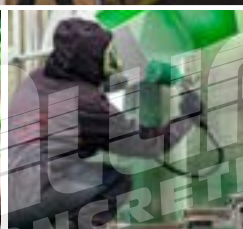

LINWOOD, PA, USA

## LINWOOD, PA, USA

Alliance Concrete Pumps expanded operations into the United States with the opening of their first east coast facility in Pennsylvania in 2006. The recently expanded branch in Linwood, PA is stocked with a large inventory of parts for all makes of pumps.

This facility boasts four dedicated service bays complete with welders, hose crimping capabilities and is equipped with a 20-ton overhead crane. The parts and service team in Linwood is ready to take on any size job for any brand of pump.

# JUNJIN PARTNERSHIP

Alliance Concrete Pumps Inc. is partnered with JUNJIN Heavy Industry to become a leading manufacturer of truck-mounted concrete pumps and placing booms that serves all markets throughout the United States and Canada. Our equipment is manufactured on a rolling assembly line, streamlining efficiencies that ensures a common build that delivers a consistent, high quality product built to the right specifications every time.

# STANDARD FEATURES

## 1 BOOM, OUTRIGGERS & TURRET

High-strength structural steel

## 2 HAWE LOAD HOLDING VALVE

HAWE Holding Valves on boom cylinders

## 3 MAIN PUMP

Accumulator pump, boom pump and accessory pumps are all Rexroth except 10 cell with Kawasaki main pump

## 4 HYDRAULIC OIL COOLER

Powerful hydraulic driven fan achieves maximum cooling and is controlled by a temperature sensor with manual override

## 5 BOOM CONTROL VALVE

Fully proportional HAWE control valves

2

1

8

## CUSTOMIZE YOUR PUMP:

- Custom Graphics Package
- Aluminum Fold-Down Hopper Cover
- Hydraulic Tank Heater
- Pressure Washer
- Air Chuck at Rear
- SAS (Safe Angle System)
- Additional Tool Box
- Extra Outrigger Pads
- LED Boom Lights
- Back Up Camera
- Beacon Light on Cab
- Auto Transmission
- Aluminum Splash Guard
- Water Tank Heater
- LED Outrigger Lights
- CCI Lined Back End
- Twin Wall Pipe
- Air Cuff
- Dunnage Rack

## 6 MAIN PUMP MANIFOLD

Directs oil to the open-loop circuit with manual overrides for all electric functions

## 7 S-VALVE MANIFOLD

Directs oil flow to either shift cylinder. Accumulator pressure is also utilized to control the main pump controllers

## 8 SPLIT PANEL

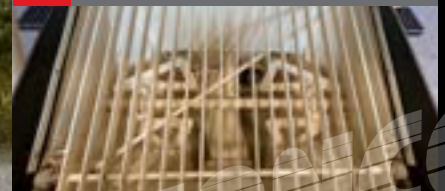

Common relays are utilized with 12V fuses. The smaller panel at the rear of the pump minimizes clutter and eliminates long wiring looms.

## 9 HOPPER VIBRATOR

Standard on all boom and truck-mounted line pumps. Helps you tackle even the harshest mixes.

## 10 EASY CLEAN 600L

Tungsten carbide wear parts come standard along with 60mm agitator shafts

## 11 MANUAL OVER-RIDE ELECTRICAL SYSTEM

All electrical functions have manual over-rides

## RADIO REMOTE CONTROLS:

Your choice of frequency hopping Scanreco, Omnex, or HBC remotes. The Scanreco and Omnex remotes come with two wireless transmitters and a data cable that convert your wireless transmitters into proportional hard wire controls.

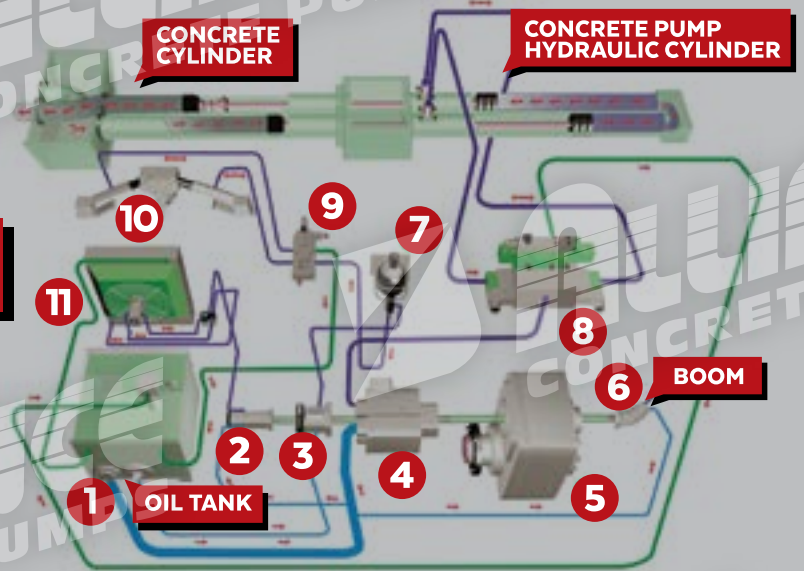

# HYDRAULIC SYSTEM

The open loop hydraulic system reduces heat exposure to the hydraulic oil and helps to reduce oil contamination, increasing the performance and longevity of your equipment.

## SYSTEM SECTIONS

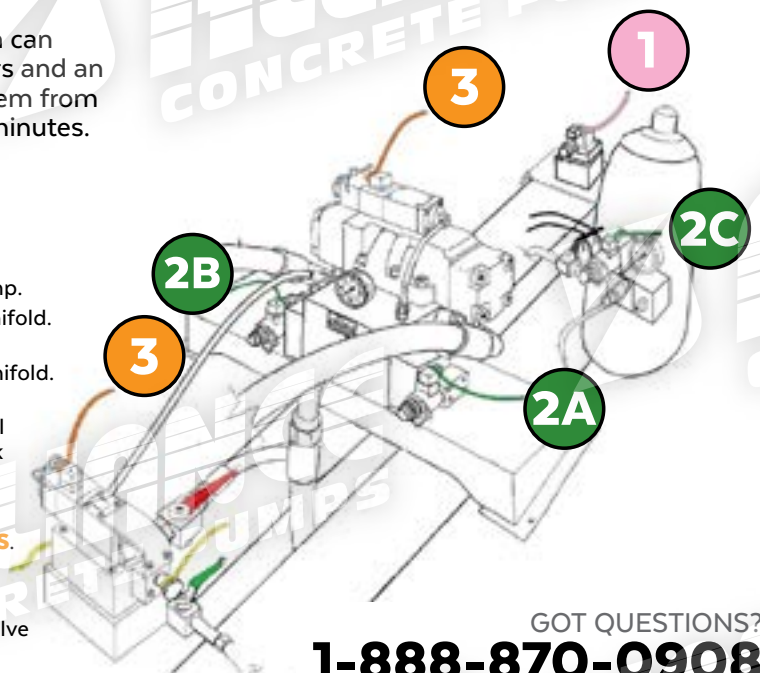

- |                    |                           |
|--------------------|---------------------------|
| 1 Oil Tank         | 7 Accumulator             |
| 2 Double Gear Pump | 8 Manifold Block for Main |
| 3 Valve Oil Pump   | 9 Manifold                |
| 4 Main Pump        | 10 S-Valve Change Device  |
| 5 P.T.O.           | 11 Oil Cooler             |
| 6 Boom Pump        |                           |

## EMERGENCY PUMP OPERATION FOR PARTIAL OR TOTAL LOSS OF ELECTRICAL CONTROL

In the event of an electrical malfunction, the entire system can continue to pump in manual mode. With color coded levers and an easy to read diagram, operators can switch the entire system from an electric mode to manual and resume pumping within minutes.

- 1. RESTORE ACCUMULATOR PRESSURE:** Locate the valve with the **PINK STRAP**. Push the button inward and lock into place with the spring clip.
- 2. ACTIVATE PUMPING:** These three steps activate the concrete pump.
  - Locate the valve with the **GREEN STRAP** on the PS of the manifold. Push in this end button first and lock with the spring clip.
  - Locate the valve with the **GREEN STRAP** on the OS of the manifold. Push in this end button second and lock with the spring clip.
  - Locate the valve with the **GREEN STRAP** on the separate small manifold towards the cab. Push in this end button third and lock with the spring clip. This brings full 3 volume - see step d) for an optional, !!) slower volume control.
- 3. REVERSE PUMPING:** Locate the valves with the **ORANGE STRAPS**. Pushing them both in and locking with spring clips will activate reverse pumping.
- 4. MOMENTARILY STOP PUMPING:** Release the spring clip on the valve from step 2b. Re-engage the spring clip to start pumping again.

| SG10001295        | M30 x 150mm - 8.8 Bolt         | \$16.00         |
| SG10015401        | M30 Disc                       | \$3.00          |
| SG10001332        | M16 x 35mm - 8.8 Bolt          | \$2.00          |
| SG10015400        | M24 Disc                       | \$2.00          |
| SG10003579        | M24 x 60mm - 8.8 Bolt          | \$5.00          |
| SG10006723        | M16 Disc                       | \$2.00          |
| <b>SG10018037</b> | Bearing Bushing (Front)        | \$62.00         |
|                   | <b>BULK PRICING: 6 or more</b> | <b>\$46.50</b>  |
| <b>SG10018047</b> | Bearing Bushing (Rear)         | \$147.00        |
|                   | <b>BULK PRICING: 6 or more</b> | <b>\$110.25</b> |
| SG10018035        | Sealing Cover                  | \$147.00        |

## O-RINGS

| PART NUMBER | DESCRIPTION           | PRICE   |
|-------------|-----------------------|---------|
| SG10000602  | 7" O-Ring (Old Ring)  | \$6.00  |
| SG10206184  | 7" O-Ring (New Style) | \$13.00 |
| SG10206185  | O-Ring (Old Ring)     | \$16.00 |
| SG10000765  | O-Ring                | \$2.00  |
| SG10004761  | D-Ring                | \$4.00  |
| SG10017436  | O-Ring 70mm x 8mm     | \$6.00  |
| SG10001052  | O-Ring 94mm x 3mm     | \$4.00  |
| SG10016241  | O-Ring 95mm x 8mm     | \$5.00  |
| SG10016664  | O-Ring 195mm x 3mm    | \$4.00  |
| SG10016665  | O-Ring 225mm x 3mm    | \$5.00  |

## SHIFTING CYLINDER

| PART NUMBER | DESCRIPTION                               | PRICE      |
|-------------|-------------------------------------------|------------|
| SG10094569  | Cylinder - HYD, Shifting 80/45 x 185 Long | \$3,250.00 |
| SG10017556  | Cylinder - HYD Piston Rod                 | \$950.00   |
| SG10064756  | Seal Kit for 10094569                     | \$99.00    |
| SG10118218  | Cylinder - Hyd Slewing Pivot              | \$300.00   |
| SG10006726  | Bushing - MB 3530 DU                      | \$4.00     |
