

Dear Lansdowne YMCA Members,

**FOR YOUTH DEVELOPMENT®
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY**

I am happy to share some good news!

Our swimming pool is FILLED, and the new pool filtration system is working great! As you can see from the picture, we are making progress toward getting our pool reopened. We are now working on cleaning the bottom of the pool and the surrounding pool deck to get everything ready for your return.

This week, work will begin on what may be the most difficult part of this entire project — the removal and replacement of our hot water and building heating boilers. This is a major undertaking, and we anticipate that the removal and installation of the new boilers will take approximately 2–3 weeks. While this is a significant amount of work, it is another important step toward getting our facility back to normal.

I know this has been a long and frustrating journey, and I cannot thank you enough for your patience, understanding, and continued support.

We are not quite at the finish line, but we are getting closer every day. I look forward to the day when we can welcome everyone back into the pool!

Thank you for sticking with us. It means more than you know.

Michael Ranck
President & CEO
